MARKING

Pirelli works to create the PERFECT FIT between car and tire in collaboration with the best car manufacturers. This collaboration is carried out through the use of dedicated technologies, processes and materials. Mixing these elements which are designed from the first phases of the project, Pirelli is able to develop marked tires custom-made for any kind of vehicles.

Marked tires can be recognized from a specific symbol or code on the sidewall that indicates the tire's co-development with a specific car manufacturer. These markings indicate that a tire has been homologated for a specific model working with a vehicle's manufacturer and is the chosen match for that car model.
These tires are the result of a strong joint effort of technological development between the engineers of Pirelli and the most prestigious car manufacturers, to enhance the car's performance while assuring a unique driving experience. For years Pirelli has been the leading European provider of premium and prestige original equipment fitments with over 3,000 homologation approvals worldwide. Pirelli will continue to build on these achievements for the vehicles of the future.

P Zero, Zero, P Zero System, Zero Nero, Cinturato, Cinturato Strada All Season, P7, P6, P6000, Powergy, Scorpion, Scorpion Verde, Scorpion Strada, Scorpion Strada, Sottozero, Snowsport, Snowcontrol, Ice Zero, Sottozero, WeatherActive, Winter 160 Direzionale, Winter 190 Direzionale, Winter 210 Asimmetrico, Winter 190 Asimmetrico are trademarks of Pirelli Tyre S.p.A. and/or Pirelli & C. S.p.A.

MARKING	OEM/VEHICLE	DETAILS
AR, ARR	**ALFA ROMEO** ALFA ROMEO 4C (4C)	AR: Original Equipment Marking. ARR: "Alfa Romeo Racing". Special marking for Alfa Romeo 4C Optional Racing.
ALP	**ALPINA**	Original Equipment Marking.
A6A, A7A, A8A, AM4, AM8, AM9, AMP, AMS	**ASTON MARTIN** ASTON MARTIN VANTAGE (AM600), ASTON MARTIN DBS SUPERLEGGERA (AM700), ASTON MARTIN DBX (AM800), ASTON MARTIN VANQUISH (AM310), ASTON MARTIN V12 VANTAGE (AM305), ASTON MARTIN V8 VANTAGE (AM305), ASTON MARTIN ONE-77 (VHP), ASTON MARTIN DBS (AM803), DB9 (AM803), VIRAGE (VIRAGE)	A6A / A7A / A8A: The A stands for Aston, the number is the program number and the last letter is the issue number (A=1st, B= 2nd.....). AM4 / AM8 / AM9: AM stands for Aston Martin, while the number represents the first number of the vehicle program at the time. AMP / AMS: AM stands for Aston Martin, while the suffix letter, the program name at the time.
AO, AO1, AOE, AOE1	**AUDI**	AO: "Audi Original". Original Equipment Marking. Number Series determines new tire spec (1,2...). AOE: "Audi Original Extended". Specific Marking for Audi's Run Flat fitments. Number Series determines new tire spec (1,2...). to the latest homologated tire spec(AO, AO1...).
RO1, RO2	**AUDI**	Specific Audi Sporty division Quattro model marking. Number Series determines new tire spec (1,2...). For all new Audi Sport projects AO is used.
B, B1, BC, BL	**BENTLEY**	B / B1: Original Equipment Marking. Serial Number identifies new tire spec. BC: "Bentley Comfort". It identifies Bentley Comfort Oriented BL: "Bentley Low Rolling Resistance". It identifies Bentley Low Rolling Resistance Tire Spec. Serial Number identifies new tire spec.
★, I★	**BMW**	Original Equipment Marking. I★: Used to distinguish Ipcodes with same size but different tire spec.
F, F01, F02, F03, F04	**FERRARI**	Original Equipment Marking. Number Series determines new tire spec (1,2...).
FP	**FORD**	"Ford Performance". OE marking dedicated to ST Ford Lines.

MARKING	OEM/VEHICLE	DETAILS
H0	**HONDA**	Original Equipment Marking.
HN	**HYUNDAI**	Original Equipment Marking for N Models.
GOE	**HYUNDAI-GENESIS**	"Genesis Original Equipment". Original Equipment Marking.
J JRS	**JAGUAR** JAGUAR XK-RS (X150), F-TYPE (X152)	Original Equipment Marking. JRS is used for specific XR-RS and F-Type fitments.
JP	**JEEP**	Original Equipment Marking.
L L1	**LAMBORGHINI**	Original Equipment Marking. Number Series determines new tire spec (1,2...).
LR LR1 LR2 LR3 LR5	**LAND ROVER**	Original Equipment Marking. Number Series determines new tire spec (1,2...).
LS	**LOTUS**	Original Equipment Marking.
MGT MGT1	**MASERATI**	"Maserati Genuine Tires". Original Equipment Marking. Number Series determines new tire spec (1,2...).
MC MC1 MC2	**MCLAREN**	Original Equipment Marking. Number Series determines new tire spec (1,2...).

MARKING	OEM/VEHICLE	DETAILS
MO MOE MOE-S MO-P MO-S MO-V	**MERCEDES-BENZ**	MO: Original Equipment Marking. MOE: "Mercedes Original Extended". Specific Marking for the Run Flat fitment of Mercedes. MOE-S: "Mercedes Original Extended Silent". Specific Marking for the Run Flat and PNCS fitment of Mercedes. MO-P: "Mercedes Original Performance". Specific Marking for Performance tires. MO-S: "Mercedes Original Silent". Specific Marking for the PNCS fitment of Mercedes. MO-V: "Mercedes Original V". Dedicated to light truck/pick-up vehicles.
MO1 MO1A MO1B MO1-EXT	**MERCEDES-BENZ AMG**	MO1: Specific Marking for Mercedes AMG Fitments. "A" and "B" will be defined for cases that tires with identical size description are requested for different cars (with different specs in consequence). MO1-EXT: Specific Marking for Mercedes AMG Fitments. "Ext" indicates Run Flat tires with "extended" requirements.
HP	**PAGANI**	"Horacio Pagani". Original Equipment Marking.
N0 N1 N2 N3 N4 N5 NA0 NA1 NC0 ND0 NE0 NF0	**PORSCHE** PORSCHE 911 (PO684), PORSCHE PANAMERA (PO623), PORSCHE MACAN (PO416), PORSCHE TAYCAN (PO513)	N stands for "Nürburgring", where the tire is tested. Traditional Porsche Marking. The N-0 marking is assigned to the first approved version of a tire design; later significant evolutions will result in a new generation of the tire to be branded with N-1, N-2, N-3, etc., in succession.
RIV	**RIVIAN**	Original Equipment Marking.
T0 T1	**TESLA**	Original Equipment Marking. T1 is used to distinguish a new improved spec from the original that is market T0.
+	**VOLKSWAGEN**	Marking launched for Volkswagen/Skoda and SEAT BEV vehicles in 2020.
VOL	**VOLVO**	Original Equipment Marking.

P ZERO™

The **P ZERO™** family is the maximum expression of Pirelli's Ultra High Performance philosophy. The products draw on a rich heritage rooted in continuous innovation that is focused on meeting – and surpassing, the expectations of the modern sports car driver. A combination of superb dry handling and reliable wet traction are essential to sport performance and, as such, are a top focus of the line whose name is famously synonymous with "Power is Nothing Without Control". Fitted as original equipment on over 1350 premium and prestige vehicles, the P ZERO™ range aims to provide a Perfect Fit with its nuanced and precise performance-oriented engineering.

1 CUSTOMIZED OUTER TREAD DESIGN

Designed to provide hard handling performance, high speed cornering and impressive lateral acceleration through the use of massive tread blocks on the shoulder and the central continuous rib.

2 CUSTOMIZED TREAD COMPOUND SOLUTIONS

Motorsport-derived materials for improved resistance to high thermo-mechanical stress.

3 CUSTOMIZED INNER TREAD DESIGN

Engineered to offer excellent balance between high speed driving and grip/traction thanks to dual-compound tread technology.

PERFECT FIT FOR BESPOKE PERFORMANCE

The Pirelli **P-ZERO™** (PZ4) is a unique Ultra High Performance product combining Pirelli's knowledge gained from Pirelli's partnership with the top Original Equipment Manufacturers, granting a Perfect Fit for the performance of each car.

P-ZERO™ (PZ4) has a range developed with the most prestigious OEMs that is able to meet many customization needs in terms of size, technology and seasonality. It is available in two versions, the P-ZERO™ (PZ4) Luxury and the P-ZERO™ (PZ4) Sport, to provide drivers with an incredibly customized experience.

CAR / SUV SUMMER SPORTY

1 CUSTOMIZED OUTER TREAD DESIGN

The customized outer tread design is engineered to enhance steering responsiveness thanks to the blocky shoulder's increased tread stiffness and greater lateral stability.

2 CUSTOMIZED TREAD COMPOUND SOLUTIONS

Improved tire warm up. Medium/high working range for hard handling consistency.

3 CUSTOMIZED OUTER TREAD DESIGN

The customized outer tread design is engineered to enhance steering responsiveness thanks to the blocky shoulder's increased tread stiffness and greater lateral stability.

4 CUSTOMIZED TREAD COMPOUND SOLUTIONS

The customized tread compound solutions are designed to improve tire warm up, wet performance and rolling resistance.

5 CUSTOMIZED INNER TREAD DESIGN

The customized inner tread design provides excellent traction in wet conditions thanks to the high silica content.

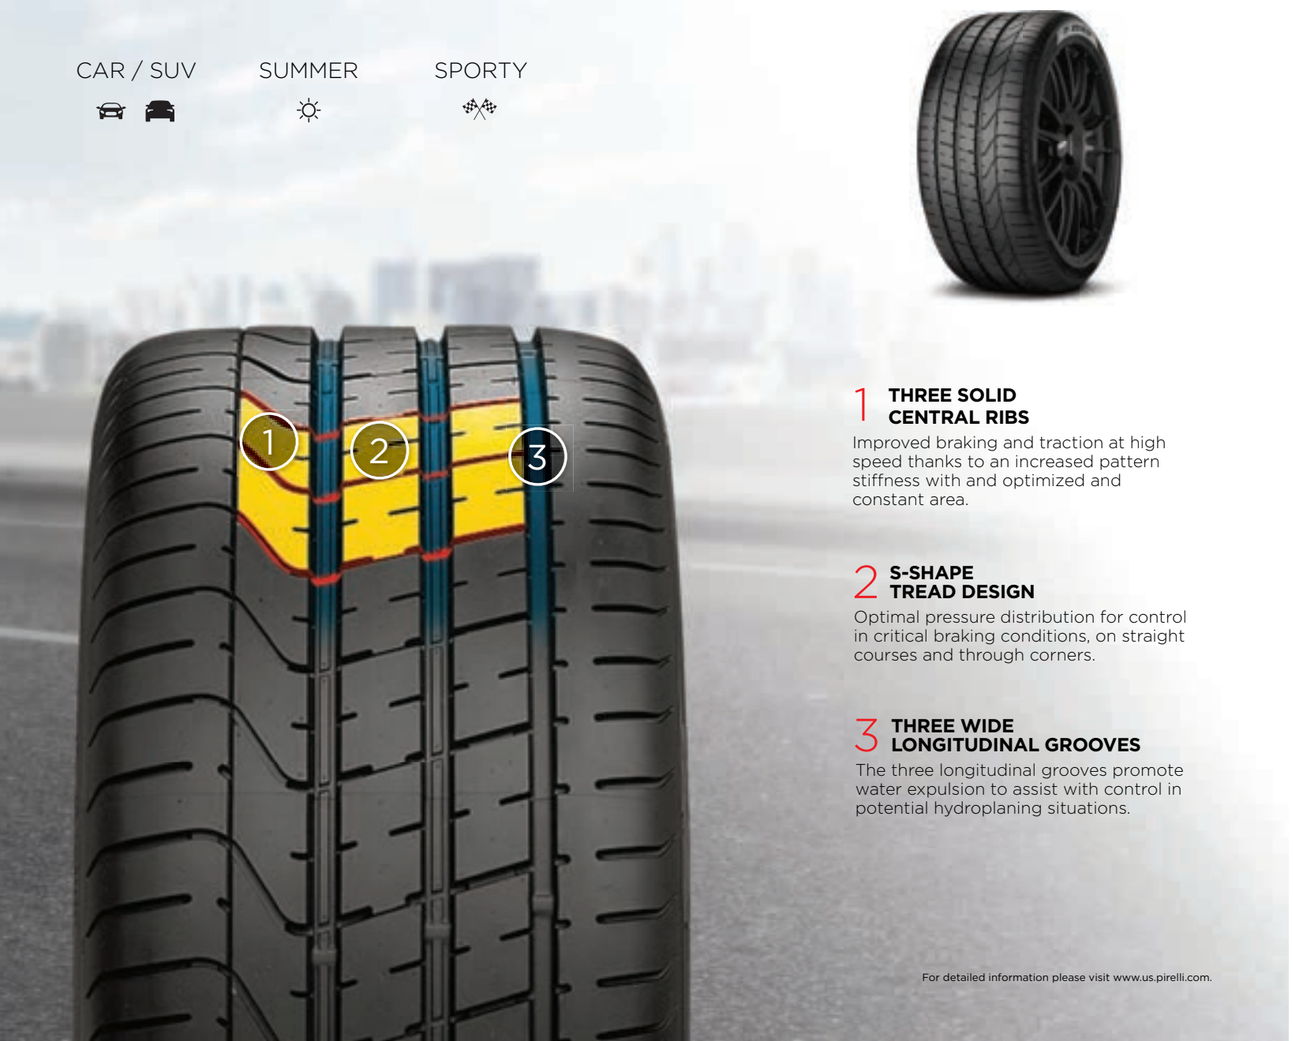
SPORT PERFORMANCE FOR EVERY VEHICLE

A milestone in the development of the Pirelli product range, **P ZERO™** has been chosen as original equipment for some of the most performance-oriented and powerful car models on the market. Created for drivers seeking maximum performance and a dynamic response, its tread pattern is designed to improve braking performance and enhance handling and control.

CAR / SUV SUMMER SPORTY



P ZERO™

AVAILABLE TECHNOLOGIES

RUN FLAT — NO PRESSURE DRIVE

PNCS — COMFORTABLE DRIVING

HOMOLOGATIONS

ALFA ROMEO	FERRARI	MCLAREN
ASTON MARTIN	FORD	MERCEDES
AUDI	JAGUAR	MINI
BENTLEY	JEEP	PAGANI
BMW	LAMBORGHINI	PORSCHE
BUICK	LAND ROVER	VOLKSWAGEN
CADILLAC	LINCOLN	VOLVO
CHEVROLET	LOTUS	
DODGE	MASERATI	

1 THREE SOLID CENTRAL RIBS

Improved braking and traction at high speed thanks to an increased pattern stiffness with and optimized and constant area.

2 S-SHAPE TREAD DESIGN

Optimal pressure distribution for control in critical braking conditions, on straight courses and through corners.

3 THREE WIDE LONGITUDINAL GROOVES

The three longitudinal grooves promote water expulsion to assist with control in potential hydroplaning situations.

For detailed information please visit www.us.pirelli.com.

OUTSTANDING PERFORMANCE TAILOR-MADE FOR THE FINEST VEHICLES

The **P ZERO™ ALL SEASON** are Ultra High Performance All Season tires developed from the knowledge obtained via Pirelli's partnerships with the world's leading vehicle manufacturers to offer outstanding performance tailor-made for for premium sedans and SUVs.

CAR ALL SEASON PERFORMANCE

P ZERO™ ALL SEASON

HOMOLOGATIONS

ALFA ROMEO
AUDI
BENTLEY
BMW
CHRYSLER
DODGE
FORD
HYUNDAI
GENESIS
KIA
LUCID
MASERATI
MERCEDES
VOLVO
VOLKSWAGEN

1 COMFORT

The variable size tread elements with a specific pitch sequence are engineered to minimize noise inside the vehicle.

2 WINTER PERFORMANCE

The inner blocks have winter siping technology aimed at improving snow traction performance.

3 WATER EXPULSION

Circumferential grooves promote faster water expulsion and control in hydroplaning situations.

4 PERFORMANCE

Outer blocks lateral siping is designed to maximize cornering performance and control in hydroplaning situations.

For detailed information please visit www.us.pirelli.com.

MAXIMUM PERFORMANCE IN ALL WEATHER CONDITIONS

Ultra High Performance, all season tire, for performance and driving enthusiasts. Now drivers of performance vehicles with a taste for hairpin turns, slippery roads and sudden stops have a top choice for **confident control** and **smooth comfort, plus year-round versatility** that's built to last.

Developed with **advanced materials and high tech production methods**, the **P ZERO™ ALL SEASON PLUS** is a replacement tire for maximum performance in all weather conditions. It is built for enhanced handling and grip while offering outstanding treadwear and mileage. **50,000 mile limited treadwear warranty**.*

CAR ALL SEASON PERFORMANCE

P ZERO™ ALL SEASON Plus

WARRANTY PROTECTIONS

50K Miles | **Pirelli Confidence Plus Plan**

50,000 Mile Limited Treadwear Warranty*

1 COMFORT

Variable size tread blocks with a specific pitch sequence to minimize noise inside the vehicle.

2 COMFORT AND CONTROL

Variable tension control nylon belt optimizes footprint shape for high levels of comfort, greater control and better treadwear.

3 CONTROL

Circumferential grooves are designed to improve water expulsion aiming to improve control in case of hydroplaning situations.

4 WINTER PERFORMANCE

Winter siping technology for enhanced tread pattern stability and improved snow traction performance.

5 PERFORMANCE

Outer Blocks: lateral siping built to maximize cornering performance and dry grip while promoting hydroplaning resistance.

RESPONDS TO THE DRIVER'S ACTIONS IN ALL CONDITIONS

The Pirelli **P ZERO NERO™ ALL SEASON** is designed to offer a winning combination of quiet ride, precise cornering and superior grip in both wet and dry driving conditions. It is available in both conventional and **Run Flat constructions** and was developed for a growing list of Original Equipment fitments and replacement sizes.

1 WET GRIP

Four proportioned channels are designed to provide great control in hydroplaning situations.

2 CONSISTENT GRIP FOR ACCELERATION AND BRAKING

A solid center rib provides excellent control without compromising the dynamic response of the product in both dry and wet conditions.

3 TRACTION

The increased sipes and void-to-rubber ratio are designed to improve winter performance, while the asymmetric tread pattern offers an optimized footprint for all weather conditions.

OPTIMUM BALANCE BETWEEN PERFORMANCE AND COMFORT

The Pirelli **P ZERO ROSSO™** is designed to offer sports performance, providing outstanding steering response on dry and wet roads. It was developed for sports cars with electronic drive and stability control systems. The product features two different tread patterns, designed to provide the best sports performance:

- A directional tread pattern, for the front axle
- An asymmetric tread pattern for the rear axle

CAR / SUV SUMMER PERFORMANCE

1 WET HANDLING

The directional tread pattern on the front axle is designed to provide excellent grip on both wet and dry roads, thanks to its "arrow" grooves and longitudinal channels.

2 ENHANCED CONTROL

The four longitudinal grooves are designed to improve control in potential hydroplaning situations.

3 HIGH HANDLING

The asymmetric pattern design for the rear axle promotes high levels of handling. Its semi-slick center rib enhances driving precision in accelerating and braking, while the robust outer shoulder and intermediate tread blocks are connected by circumferential rings, enhancing dry grip.

CINTURATO™

CINTURATO™, in itself a storied Pirelli brand, aims to achieve balance through a careful calibration of high performance attributes, durability, and environmental sensitivity within its product family. Advanced compounds that have been created to enhance grip on both wet and dry roads are combined with an eco-friendly tread compound that also reduces cabin noise* and positively impacts rolling resistance. Suitable for a wide range of premium touring cars, CINTURATO™ products are a stand-out choice that offers signature performance, comfort and durability.

*Reduction in noise indicated by Pirelli internal testing vs. Standard product

CINTURATO P7™
Summer OE
Performance

CINTURATO P7™ ALL SEASON
OE Performance

P7™ AS PLUS 3
Replacement
Performance

COMFORTABLE DRIVING FOR A LONG JOURNEY

CINTURATO P7™ has been developed for owners of high performance medium to high-powered cars. It showcases the Pirelli Green Performance philosophy, combining our focus on performance, control, driving pleasure and attention to the environment.

CAR SUMMER TOURING

1 FOUR WIDE LONGITUDINAL GROOVES

Promote water expulsion to assist with control in potential hydroplaning situations.

2 COMPACT CENTRAL BLOCKS AND ROBUST EXTERNAL AREAS

Engineered to reduce tire distortion during fast cornering.

3 OPTIMIZED TREAD DESIGN WITH SPECIALIZED PITCH SEQUENCING

Phasing is designed to provide reduced internal noise.

4 INNOVATIVE AND ADVANCED HYBRID MATERIAL

Promotes balanced pressure distribution for a comfortable ride.

For detailed information please visit www.us.pirelli.com.

SUSTAINABILITY AND TECHNOLOGY

SAFETY, EFFICIENCY, SUSTAINABILITY AND TECHNOLOGY AT OUTSTANDING LEVELS FOR FUTURE GENERATION CARS

NEW CINTURATO P7™ (P7C2) is the latest Pirelli Summer high performance for premium cars and crossovers with a strong focus on wet performance, mileage and rolling resistance. These features are perfectly balanced, making the new Cinturato the first choice of the best carmakers. The new tread pattern design and profile, in addition to the innovative compound materials, are designed for **SAFETY** with **EFFICIENCY, SUSTAINABILITY** and **TECHNOLOGY** top-of mind. The **NEW CINTURATO P7™** is engineered to reduce braking distance, fuel consumption and noise emissions a great choice that helps puts you **IN CONTROL** of your vehicle.

CAR SUMMER TOURING

Cinturato P7™

(P7C2)

ALFA ROMEO
AUDI
BMW
MERCEDES
MINI
VOLKSWAGEN
VOLVO

1 SAFETY

Innovative chamfer design is engineered to reduce braking distance. Void ratio and groove shapes are optimized to reduce aquaplaning risks.

2 EFFICIENCY

Flat profile for a better rolling resistance and regular wear.

3 SUSTAINABILITY

Increased pitch sequence for acoustic comfort and less noise pollution.

PERFORMANCE IN ALL FOUR SEASONS

The **CINTURATO P7™ ALL SEASON** is developed to meet the strict specifications of the top Original Equipment manufacturers, with a strong emphasis on all season performance and handling for superior grip in both wet and dry driving conditions, and excellent stability in potential hydroplaning situations.

CAR ALL SEASON TOURING

Cinturato P7™ ALL SEASON

AVAILABLE TECHNOLOGIES

ELECT — TECHNOLOGY FOR ELECTRIC VEHICLES

1 COMFORT

Pitch sequencing and phasing provided by an optimized tread design are designed to provide lower internal noise.

2 ALL SEASON PERFORMANCE

Excellent water expulsion capabilities through an innovative tread pattern featuring four wide longitudinal grooves.

3 STEERING RESPONSE

Robust tread elements and optimized tread compound stiffness promote excellent steering response in all weather conditions.

For detailed information please visit www.us.pirelli.com.

GO THE EXTRA MILE WITH COMFORT

The **P7™ ALL SEASON PLUS 3** is Pirelli's new, completely redesigned Touring All-Season tire for sedans and coupes. Part of Pirelli's Plus line of products, the P7™ ALL SEASON PLUS 3 is designed to better meet the needs of drivers in the North American market. It sports a new tread pattern, compound and construction yielding outstanding mileage, enhanced winter performance, improved wet/dry handling, and increased comfort with a quieter ride compared to its previous generation.

CAR ALL SEASON TOURING

P7™ AS PLUS 3

WARRANTY PROTECTIONS

70K Miles | Pirelli Confidence Plus Plan

70,000 Mile Limited Treadwear Warranty*

1 3D TECHNOLOGY

3D sipe technology that works together with the tread pattern to deliver confident handling feel dry or wet

2 CONFIDENT CONTROL

Full depth tread sipes that work mile after mile for improved traction, handling, and braking

3 MORE MILEAGE

Innovative tread compound designed to go the extra mile while delivering all-season confidence

* For detailed information please visit www.us.pirelli.com.
**As compared to the product's previous generation.

ENGINEERED TO LAST LONGER WITH ALL AROUND PERFORMANCE

P4™ PERSIST AS PLUS is an all season tire dedicated to coupes, sedans and minivans. Created utilizing innovative materials and processes, its compound contains over 18 different components calibrated to achieve an optimal balance between high mileage and all-season performance.

CAR ALL SEASON TOURING

P4™ PERSIST AS PLUS

WARRANTY PROTECTIONS

85K Miles | Pirelli Confidence Plus Plan

85,000 Mile Limited Treadwear Warranty*

1 DURABILITY

The continuous central rib improves both tire durability and overall handling.

2 CONTROL

The central longitudinal grooves are designed to maximize water expulsion for outstanding control.

3 EXTENDED TREAD LIFE

Reinforced shoulders enhance stability to promote high mileage, even treadwear and fuel savings.

4 EXCELLENT ALL SEASON TRACTION

Variable angle grooves aim to provide a mechanical grip for improved steering response, especially in wet weather and light snow conditions.

WEATHERACTIVE™

Introducing the new **WEATHERACTIVE™** range. The new all-weather addition to the Pirelli family is available for passenger cars in the CINTURATO™ WEATHERACTIVE™ and CUV's/SUV's/pickup trucks in the SCORPION™ WEATHERACTIVE™. The difference between all-weather and all-season is simple – more confidence and better performance in extreme conditions like snow and ice, certified by the presence of the Three Peak Mountain Snow-flake rating.

All-weather tires provide year-round support as they perform just as well in summer weather and you don't have to replace them when temperatures become higher. Winter tires are optimal in regions that stay well below 44 degrees for months on end, while all-weather tires allow you to travel from location to location, no matter the conditions. This flexibility alleviates both the worry and hassle of tire performance as the seasons change.

CINTURATO™ WEATHERACTIVE™

Performance

HERE WEATHER IS ALWAYS WELCOME
GO BEYOND ALL SEASON PERFORMANCE

Engineered to perform better in snow compared to an all-season tire, this tire is backed by the Three Peak Mountain Snowflake rating (3PMS). Designed to make you confident in any weather, the hassle of switching out summer and winter tires each season is a thing of the past.

Thanks to excellent wet performance and outstanding snow traction, these new directional tires offer peace of mind in all weather conditions. A compound that performs in a broader temperature range is supported by a 60,000 mile treadwear warranty.

Whatever the weather on the road ahead, Pirelli's WEATHERACTIVE™ tires deliver 365 days of driving confidence and performance.

WARRANTY PROTECTIONS

60,000 Mile Limited Treadwear Warranty*

WARRANTY 60K Miles

1 DIRECTIONAL TREAD DESIGN

Designed with comfort and minimal noise top of mind - Passby noise quieter by 2 dB compared to leading competitor*

2 INNOVATIVE COMPOUND WITH NEW POLYMER / RESIN SYSTEM

Maintains wet performance over broad temperature range, overcoming snow/wet tradeoff without compromise to mileage.

3 'TRUMPET' SHAPED LATERAL GROOVES

Designed for optimal water evacuation in wet conditions.

4 DEEP & CONTINUOUS SIPING

66% of siping still visible at 90% worn to provide high performance throughout the tire life.

5 3-RIB TREADBLOCK DESIGN

Optimized treadblock stiffness for uniform wear.

6 ZIG ZAG CENTRAL GROOVE

Strong connections between grooves give high wet handling, traction and braking performance on snow.

7 BALANCED FOOTPRINT

A narrow and long footprint provides great snow performance and even treadwear.

For detailed information please visit www.us.pirelli.com.

SCORPION™

The **SCORPION™** family provides top quality product options for the modern pickup truck and SUV/CUV driver. Pirelli's constant commitment to functional innovation takes into account the varied needs of these drivers and has tailored the range to enhance performance and durability consistent with their high expectations. Drivers of both the most modern SUVs and also the most aggressive and demanding 4x4's can find excellent fitment options within the same product family. Taking advantage of the latest materials, structures and tread pattern innovations, SCORPION™ delivers Pirelli premium performance for both on-road and off-road applications.

1 COMFORT

Engineered for decreased cabin noise** thanks to optimized pitch sequence and PNCS (Pirelli Noise Cancelling System), a technology designed to reduce the noise inside the cabin thanks to Pirelli's sound absorbing material applied to the inside circumferential wall of the tire.

2 HIGH SIPE DENSITY

Almost 100 feet of sipes promote excellent grip and traction in the winter, resulting in great snow performance. Also, curved sipes in the internal blocks are designed for better traction and increased control on snow.

3 FOUR LONGITUDINAL GROOVES

Excellent water expulsion and lateral stability facilitated by four longitudinal grooves.

For detailed information please visit www.us.pirelli.com.
**Reduction in noise indicated by Pirelli internal testing vs Standard product.

A STREET AND SPORT TIRE FOR ALL SEASONS

The Pirelli **SCORPION ZERO™ ALL SEASON PLUS** was designed with the unique needs of performance CUV, SUV and pickup truck drivers in mind.

The materials are combined using an innovative process with the aim of giving the tread compound an optimized balance of wet and dry grip, steering response, even treadwear, and traction in light snow.

CUV / SUV / PICKUP TRUCK

ALL SEASON

PERFORMANCE

SCORPION ZERO™ ALL SEASON Plus

WARRANTY PROTECTIONS

50K Miles | Pirelli Confidence Plus Plan

50,000 Mile Limited Treadwear Warranty*

1 COMFORT

Large blocks on the outboard shoulder are designed for great handling and braking performance on both dry and wet surfaces.

2 OPTIMIZED PROFILE AND INNOVATIVE MATERIALS

Promote lower rolling resistance and weight for reduced fuel consumption and CO2 emissions in addition to improved mileage.**

3 FOUR LONGITUDINAL GROOVES

Four large circumferential grooves promote removal of water from the contact patch to minimize hydroplaning. The tread compound is molded into an asymmetric tread design, using variable sized tread blocks to minimize noise.

4 SNOW PERFORMANCE

Winter siping technology is used on the inboard block to enhance snow traction while maintaining tread pattern stability.

* For detailed information please visit www.us.pirelli.com.
**As compared to the product's previous generation.

1 INCREASED GRIP

Asymmetric tread design with Z profile promotes traction and braking control on all surfaces.

2 APPEARANCE

Aggressive appearance makes the Scorpion Zero™ Asimmetrico an outstanding choice for performance and tuning.

3 HANDLING

Advanced construction technology and sophisticated manufacturing techniques promote stability when cornering, exceptional handling on wet and dry roads, and strong grip when braking.

For detailed information please visit www.us.pirelli.com.

OEM PERFORMANCE FOR SUVS AND CROSSOVERS

SCORPION VERDE

Pirelli **SCORPION™ VERDE** is an SUV and crossover product that provides excellent grip and stability in a wide range of road conditions. The low rolling resistance and reduced weight are designed to promote lower fuel consumption and CO2 emissions**, with the goal of combining savings, respect for the environment, comfort and control on most road surfaces.

VOLKSWAGEN

1 VARIABLE SECTION LATERAL GROOVES
Safe aquaplaning levels without compromising noise.

2 OPTIMIZED LAND/SEA RATIO
Better braking. Improved noise emissions. Improved handling. Enhanced wear.

3 INNOVATIVE CHAMFER DESIGN
Reduced braking distance.

4 OPTIMIZED PITCH SEQUENCE
More comfort. Lower noise leve.

5 NARROW FLAT CAP PROFILE, FLAT BELTS DESIGN
Reduced braking distance. Lower RR. Enhanced wear.

1 ALL SEASON PERFORMANCE

Longitudinal siping and high level lateral siping density promote greater lateral stability for all season performance including winter and wet conditions.

2 CONTROL IN WET CONDITIONS

Large contact patch and four longitudinal grooves promote control and excellent water expulsion.

3 OPTIMIZED PROFILE AND INNOVATIVE MATERIALS

Provide lower rolling resistance and weight promoting reduced fuel consumption and CO2 emissions.**

GO THE EXTRA MILE WITH COMFORT

The **SCORPION™ ALL SEASON PLUS 3** is Pirelli's new, completely redesigned Touring All-Season tire for crossovers, sport utility vehicles, and pick-up trucks. Part of Pirelli's Plus line of products, the SCORPION™ ALL SEASON PLUS 3 is designed to better meet the needs of drivers in the North American market. It sports a new tread pattern, compound and construction yielding outstanding mileage, enhanced winter performance, improved wet/dry handling, and increased comfort with a quieter ride compared to its previous generation.

CUV / SUV / PICKUP TRUCK

ALL SEASON

TOURING

SCORPION™ AS PLUS 3

WARRANTY PROTECTIONS

70K Miles | Pirelli Confidence Plus Plan

70,000 Mile Limited Treadwear Warranty*

1 3D TECHNOLOGY

3D sipe technology that works together with the tread pattern to deliver confident handling feel dry or wet

2 CONFIDENT CONTROL

Full depth tread sipes that work mile after mile for improved traction, handling, and braking

3 MORE MILEAGE

Innovative tread compound designed to go the extra mile while delivering all-season confidence

For detailed information please visit www.us.pirelli.com.
**As compared to the product's previous generation.

ALL SIZES AVAILABLE WITH SNOWFLAKE MARKING

1 HANDLING

Alternating blocks with sharp and blunt edges are designed to provide improved traction on a variety of terrains.

2 SHOULDER BLOCKS

Reinforced shoulder blocks for higher cut and chip resistance.

3 APPEARANCE

Tread pattern delivers an aggressive look while maintaining balanced performance for on and off road conditions.

4 DURABILITY

Enhanced durability and resistance to cutting and chipping supported by an innovative new compound.**

5 DEEP TREAD GROOVES WITH CONICAL STONE EJECTORS

Excellent mud and snow traction facilitated by deep tread grooves with conical stone ejectors to provide a self-cleaning pattern aimed at increasing contact patch integrity.

1 STABLE AND COMFORTABLE ON ALL ROAD TERRAINS

The strong internal structure and reinforced sidewalls are designed to give a stable and comfortable ride across a wide range of roads and terrains, with lower internal cabin noise.

2 SELF-CLEANING GROOVES FOR CONTINUOUS TRACTION

The curved central grooves are designed to increase grip on irregular surfaces and clear mud and stones for excellent performance.

3 GREAT TRACTION ON UNEVEN TERRAIN

Wide and rugged shoulder blocks engineered to provide stability and improved lateral grip for braking efficiency and traction on uneven terrain.

WINTER

Pirelli's Winter range aims to provide the best aspects of Pirelli's high performance driving philosophy during the most challenging winter weather conditions. With an increased focus on stability and achieving ideal braking distances, Pirelli's winter product offerings bring control to the forefront to tackle a more unforgiving environment. Advanced compounds and specialized tread patterns are crafted to manage both lower temperatures and snow accumulation to maintain optimal performance.

P ZERO™ WINTER
High Performance in Winter Conditions

WINTER SOTTOZERO™

P ZERO WINTER PERFORMANCE

The Pirelli **P ZERO™ WINTER** is engineered for the highest level of performance in winter weather conditions, based on co-development with car makers and the Perfect Fit. It is developed for carmakers and end-users already familiar with the P ZERO™ performance in summer who want to enjoy a similar experience in winter weather.

P ZERO™ is synonymous with top performance around the world.

CAR WINTER PERFORMANCE

P ZERO™ WINTER

AVAILABLE TECHNOLOGIES

ELECT™ — TECHNOLOGY FOR ELECTRIC VEHICLES

SEAL INSIDE — PUNCTURE CONTROL

RUN FLAT — NO PRESSURE DRIVE

HOMOLOGATIONS

ALPINA	MERCEDES	TESLA
AUDI	PAGANI	VOLVO
BMW	PORSCHE	
MCLAREN	ROLLS-ROYCE	

1 ULTRA HIGH PERFORMANCE ON SNOW

Internal shoulder with high sipe density and both transversal and crossed grooves maximize traction and braking on snow.

2 PRECISION STEERING ON WET SURFACES

Two stiff central blocks are designed to provide high steering control. Three longitudinal grooves eject a high flow of water from the footprint.

3 EXTREME HANDLING PERFORMANCE ON DRY

Blocks in the external shoulder with low sipe density and high stiffness support lateral force during cornering.

For detailed information please visit www.us.pirelli.com.

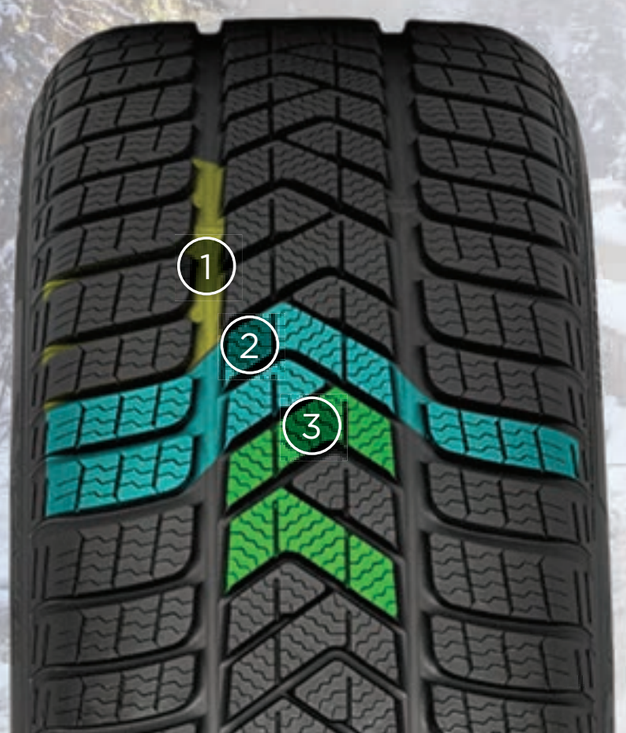
TOP PERFORMANCE FOR THE WINTER SEASON

WINTER SOTTOZERO™ 3 is the winter tire dedicated to high-end premium vehicles. It has been designed with the evolution of modern vehicles in mind. This tire is engineered to achieve maximum control and performance in a wide range of winter weather conditions by using the latest technological features including new compounds and new sipe design. The WINTER SOTTOZERO™ 3 was co-developed with premium and prestige OEMs.

CAR WINTER POWER CONTROL



1 WET PERFORMANCE

Wide grooves promote water expulsion.

2 DRY PERFORMANCE

While the wide grooves are designed to increase water expulsion, the 3D sipe technology aims to enhance tread pattern stability, optimizing the footprint and providing more grip with less treadwear.

3 SNOW PERFORMANCE

The directional double arrow pattern design increases the number of blocks while high sipe density promotes snow capture.

WINTER SOTTOZERO 3

AVAILABLE TECHNOLOGIES

THE OPTIMAL ROUTE TO YOUR WINTER DESTINATION

The Pirelli **WINTER SOTTOZERO™ SERIE II** is an ideal choice for sports cars and top end vehicles, balancing performance, control and respect for the environment. Its asymmetric tread pattern is divided into two distinct elements; the inner area promotes water expulsion while the external area, with its more rigid and spaced blocks, is designed to provide high levels of grip on snow.

CAR WINTER POWER CONTROL

WINTER SOTTOZERO Serie II

AVAILABLE TECHNOLOGIES

RUN FLAT

NO PRESSURE DRIVE

HOMOLOGATIONS

ALFA ROMEO	FERRARI	MINI
ALPINA	JAGUAR	PORSCHE
ASTON MARTIN	LAMBORGHINI	VOLKSWAGEN
AUDI	MASERATI	VOLVO
BENTLEY	MCLAREN	
BMW	MERCEDES	

1 CONTROL IN WET AND DRY CONDITIONS

The longitudinal external grooves are designed to reduce the risk of hydroplaning while two central ribs increase tire rigidity to enhance handling in dry conditions.

2 SNOW CONTROL

The inclined internal grooves reduce cabin noise and increase lateral grip, for improved snow traction.

3 OVERALL WINTER PERFORMANCE

The patented sipe construction technology aims to increase the contact area which, combined with tire rigidity even on irregular roads, is designed to improve grip, stability and braking performance.

For detailed information please visit www.us.pirelli.com.

Introducing the new
Cinturato™
WINTER 2

ALWAYS BE READY FOR WINTER.
Enjoy the winter: outstanding braking and traction on snow and wet, in wintery conditions. **Discover more on pirelli.com**

PIRELLI
POWER IS NOTHING WITHOUT CONTROL

CUTTING EDGE TIRE FOR WINTER TOURING

The Pirelli **CINTURATO™ WINTER 2** features top winter technology for the touring segment developed to achieve a high level of control in challenging winter conditions.

The new generation delivers a high mileage improvement* with high performance targets in wet and snow. Additionally, there is a strong reduction in noise compared to its predecessor giving you a more comfortable and quiet ride.

CAR WINTER TOURING

Cinturato™ WINTER 2

HOMOLOGATIONS

BMW

1 STAGGARED V-SHAPED DESIGN

Improved* snow and aquaplaning performance.

2 VARIABLE GROOVES' SECTION

Wider and drafted on the shoulder, narrower in the center to enhance handling and reduce aquaplaning.

3 NEW GROOVES DESIGN

Straight edge for enhanced* snow handling.

4 NEW INTERLOCKING 3D SIPES WITH STRAIGHT DESIGN

Increased* grip on snow with great improvement in braking performances in all conditions.

5 MAIN GROOVES CHAMFERS

Second flow space for water evacuation to reduce aquaplaning.

6 INNOVATIVE COMPOUND

High mileage combined for high level performance in wet and snow conditions.

WINTER OE PERFORMANCE

The Pirelli **SCORPION™ WINTER** has been designed to fit modern SUVs and CUVs, with a special focus on the high-end segment.

The SCORPION™ WINTER is engineered with a focus on maximum stability and control in snow, wet and dry conditions. This product combines excellent braking and handling performance with low noise and rolling resistance.

1 EXCELLENT WET HANDLING AND WET BRAKING PERFORMANCE

The circumferential grooves are designed to promote water expulsion in wet and snow conditions.

2 SNOW CONTROL

The patented sipes layout technology aims to improve grip on snow even when cornering, for excellent snow control and braking.

3 INCREASED HANDLING

The modular block geometry and both directional and asymmetric tread pattern design promote tire uniformity during cornering and lane changes.

For detailed information please visit www.us.pirelli.com.

WINTER SPECIALIST
FOR HIGH PERFORMANCE CUV'S, SUV'S & PICKUPS

SCORPION™ WINTER 2

The **SCORPION™ WINTER 2** is the Winter Specialist for High Performance SUV's & pickup trucks.

- Excellent performance on snow
- Outstanding on wet and in aquaplaning
- Low rolling resistance and high efficiency
- High mileage and great comfort.

CUV / SUV / PICKUP TRUCK

WINTER

POWER CONTROL

AVAILABLE TECHNOLOGIES

ELECT™ — TECHNOLOGY FOR ELECTRIC VEHICLES

RUN FLAT — NO PRESSURE DRIVE

SEAL INSIDE — PUNCTURE CONTROL

PNCS 4+™ — COMFORTABLE DRIVING

1 STAGGERED V-SHAPED DESIGN
Excellent performance on snow

2 OPTIMIZED VARIABLE GROOVES SECTION
Outstanding wet performance

3 MAIN GROOVE CHAMFERS
Additional flow for water evacuation optimizing aquaplaning performance.

4 3D-SIPES AND STRAIGHT DESIGN
Interlocking system with uniform block stiffness distribution offers brilliant braking performance on snow, wet, dry along with excellent mileage.

For detailed information please visit www.us.pirelli.com.

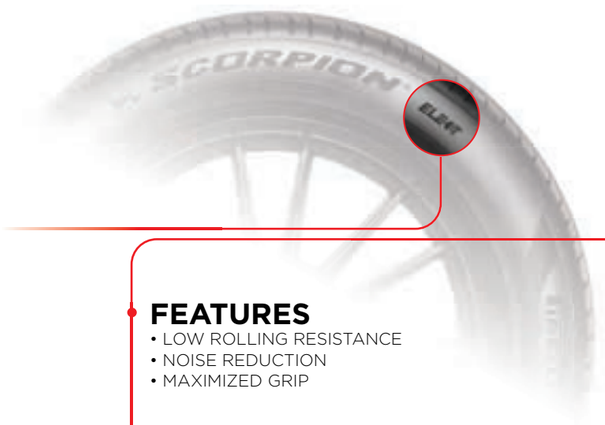
INSIDE THE PIRELLI TECHNOLOGY

FOUR INNOVATIVE TECHNOLOGIES FOR THE PRODUCT RANGE



ELECT™

PIRELLI ELECT™ TECHNOLOGY

PIRELLI'S OFFER FOR ELECTRIC VEHICLES

FEATURES
- LOW ROLLING RESISTANCE
- NOISE REDUCTION
- MAXIMIZED GRIP

BENEFITS
- MAXIMIZED ELECTRIC RANGE
- MORE COMFORT
- BETTER TRACTION
- REDUCED ABRASION

The ELECT MARKING identifies Pirelli tires developed for high performance electric and plug-in hybrid vehicles. These tires were designed to lower rolling resistance, reduce road noise, provide excellent traction and superior handling. In many cases, Electric technology is used in conjunction with other technologies, especially PNCS to reduce noise.

RUN FLAT™

RUN FLAT™

DRIVE WITHOUT PRESSURE

INFLATED TIRE
The Pirelli Self Supporting system presents specific reinforcements inserted into the sidewall structure

DEFLATED TIRE
Pirelli Run Flat tires support lateral and transverse loads of the vehicle even in the absence of pressure

RUN FLAT tires provide greater control of the car in emergency conditions and allow you to continue driving** even during a rapid loss of inflation pressure.

SEAL INSIDE™

SEAL INSIDE™

PUNCTURE PROOF

Phase 1
Sealant wraps around the object preventing air loss

Phase 2
During the removal of the object the sealant progresslvely fills the hole preventing air loss

Phase 3
Even with the object completely removed the sealant fills the hole preventing air loss

SEAL INSIDE is a new tire construction technology for continuous driving without air pressure loss even after the tire has been punctured by an external object, covering almost 85% of the possible accidental causes of pressure loss.*

* THE SEAL INSIDE TECHNOLOGY IS EFFECTIVE FOR MOST HOLES, EXCLUDING THOSE THAT COMPROMISE THE INTEGRITY OF THE TIRE.
** AFTER EXPERIENCING A RAPID LOSS OF INFLATION PRESSURE, RUN FLAT TIRES ARE EFFECTIVE AT SPEEDS UP TO 50 MPH FOR LIMITED DISTANCES.

PNCS™

PNCS™

COMFORTABLE DRIVING

The PIRELLI NOISE CANCELLING SYSTEM (PNCS) is a technology designed to reduce the noise inside the vehicle thanks to a sound absorbing material applied to the inside circumferential wall of the tire, reducing noise.

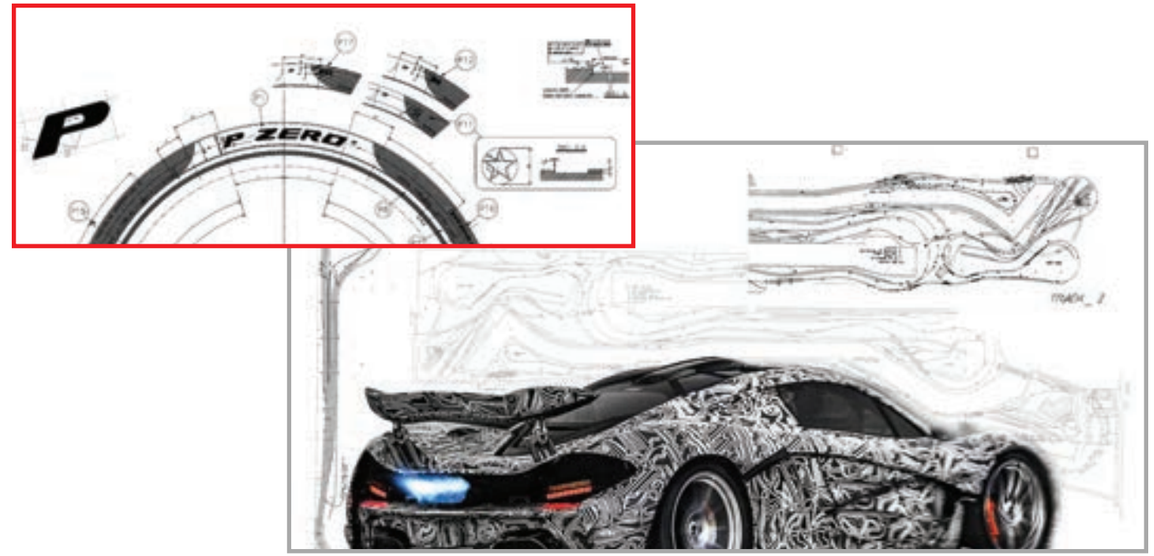
IMPROVING
DRIVING COMFORT

ABSORBING THE VIBRATION
OF THE ROLLING ON THE ROAD

HOMOLOGATION PROCESS

One of the key targets for a tire producer is to obtain an Original Equipment Manufacturer (OEM) marking for its tires. This approval is the reward for several years of research and development. The homologated tire is specifically designed for that vehicle model and is built with a focus on control on wet roads and balanced handling characteristics, excellent comfort and noise performance over the entire service life.

The homologation process works in parallel with the OEM's vehicle development process and takes around 3 years.



VEHICLE DEVELOPMENT

TIRE DEVELOPMENT

TARGET LETTER

Around 2-3 months

The tire manufacturer receives a target letter from the vehicle maker. This document outlines all the targets the tire must achive in product performance and quality.

DEVELOPMENT

Around 2-3 years

The tire manufacturer submits tires to the OEM who checks that they meet its product performance and quality requirements.

TECHNICAL HOMOLOGATION

Prior to providing the selected tires to the vehicle maker the tire manufacturer carries out several indoor and outdoor tests: handling in both dry and wet, hydroplaning, winter performance, rolling resistance, integrity and high speed.

INDUSTRIALIZATION

Around 2-6 months

The tire producer industrializes the homologated tire into the manufacturing process.

FINAL HOMOLOGATION

ORIGINAL EQUIPMENT – HOMOLOGATIONS
